

POLYMER METER FRAMES

Lightweight. Durable. Safer by Design.

Molded from advanced plastics, our frames deliver high strength at a fraction of the weight of cast iron while supporting superior AMI/AMR signal transmission.

POLYMER METER FRAMES

KEY FEATURES AT A GLANCE

- Tested to a 20,000 lb. proof load, yet over 3.5x lighter than cast iron, these frames are ideal for light-duty traffic.
- Supports 12.25" and 12.50" Maverick™ lids.
- No outside gussets increases safety—reducing trip hazards, and is an overall cleaner design.
- Ideal for AMI/AMR systems – the polymer material allows strong signal transmission and helps extend transmitter battery life.
- Add an optional locating ring for improved detection in landscaping; designed to minimize signal interference with a low-profile and wide-diameter form. (Additional cost applies.)
- Comes standard in black; green and brown optional.
- Compatible with all our meter pits and expander rings.
